Literally none of the enemies know how to swim

10/10. While the Golden Realms Expansion for Age of Wonders III only offers one new race, this expansion adds a lot of new features to the game - units, items, spells and skills - all of which are usable in the random map mode, as well as a new campaign and a couple of new scenarios.

The halflings (effectively hobbits, if you prefer) are the main feature of this expansion though. While they may seem a bit weak and wimpy at first, they do have one very useful thing on their side - luck! This helps them to survive dangerous encounters more effectively than you might expect them too. Although I've never been a fan of halflings myself, I have to admit that I've had a lot of fun playing them, much more than I expected to.

Even if you're not a fan of halflings, this is an essential addon in my opinion, if only for all of the other features it includes.. How do i get my money back?. cant load any maps yet, campaign or skirmish and its stuck on loading, no progress bar to even let me know if its working or just stuck.....

sure it might be a great game, but not now. The Story, the graphics and the open world are new milestones in Game Business. Better than EA because no DLC\00b4s, everything is in the Game from the beginning. Everyone that loved the first RTR as much as i did, will love this one too.
Keep up the good work Spell Helix. :)

Short and not too challenging, but fun.. Campaign is the best in years, probably since the Modern Warfare trilogy. The scale is amazing, all the ships and weapons look very original and the story itself isn't ripped from anything else. Campaign I would give a 9/10. Now onto multiplayer. I haven't really gotten into it that much, the Zombies are really fun I love the theme of it. Normal competitive multiplayer is quite similar as Black Ops 3, but at the same time movement seems to be a lot smoother. This game is getting too much crap than it should, it's honestly a good game. Servers seem stable, just a lack of players. No issues connecting to lobbies or friends. Worth \$100? Maybe, have to wait till the DLC to tell, worth the price for the game + MWR, yes.. Blocked In diorama was made first for Rift DK1. This was probably the best demo in the early days of VR. VR games have since advanced, but this little diorama is still as charming as ever. I can only recommend it.. VVR understands and talks about VR unlike any other experience.. Basically p*kem**
But with moe gurls 'w'). quot;'The concept of global warming was created by and for the Chinese in order to make U.S. manufacturing non-competitive.'

Lmao an instant downvote for ya
